- Business Intelligence (BI) Essentials – IBM (2024)
- SQL for Data Science – Coursera (2023)

Languages

- English (Professional Working Proficiency)
- Spanish (Native)

Ongoing Professional Development

- Currently deepening expertise in advanced Power BI features, including DAX, dataflows, and custom visuals, and active learning of APIs in .NET.
- Engaged in continuous learning of predictive analytics and machine learning for business applications

How My Experience Aligns with This Role

Analyze startup databases and financial metrics to uncover early-stage investment opportunities

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

Track industry trends, deal activity, and portfolio performance.

Built 20+ SQL stored procedures, improving query performance by 40% and reducing error rates by 75%

Support research efforts for new markets, sectors, and technologies

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

Develop dashboards and reports to track KPIs and market developments.

Architected consolidated dashboard integrating 8 data sources, cutting data preparation time by 70%

Maintain and improve internal databases of companies, contacts, and industry benchmarks

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

Automate routine data tasks using Excel, SQL, or lightweight scripting.

Built 20+ SQL stored procedures, improving query performance by 40% and reducing error rates by 75%

Assist in preparing reports, visuals, and summaries for internal and external stakeholders.

Collaborated with cross-functional teams to optimize healthcare data workflows

Support due diligence processes with data summaries and benchmarking

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

Collaborate with associates and partners to deliver data-informed recommendations

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

Help roll out native AI solutions across the firm to improve efficiency and deal quality

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

Primary charge of these roles is to help collide make better investment decisions by finding better deals, and better analyzing the deals that we see

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

Bachelors degree in Statistics, Computer Science, Economics, Data Science, or a related field

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

2–4 years of experience in data analysis, business intelligence, or consulting.

Implemented sales and inventory dashboards for Latin America, reducing decision-making time by 40%

Prior experience in startups or venture capital firms is strongly preferred; a demonstrated interest is a plus.

Experience with data integration and API-based solutions through cross-platform dashboard development

Advanced Excel skills

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

Proficiency in Python or R

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

SQL for querying structured datasets.

Built 20+ SQL stored procedures, improving query performance by 40% and reducing error rates by 75%

Familiarity with BI tools like Tableau, Power BI, or Looker.

Implemented sales and inventory dashboards for Latin America, reducing decision-making time by 40%

Ability to work U.S. business hours (Pacific Time, Central Time, or Eastern Time)

Implemented sales and inventory dashboards for Latin America, reducing decision-making time by 40%

Additional Notes (Optional)

If there are requirements in the job description that are not directly evidenced above, I am actively developing transferable skills and have a strong record of quickly bridging knowledge gaps through self-directed learning and hands-on practice.
