Bachelor of Business Administration (BBA) in International Business and Finance

Universidad Autónoma del Caribe — Barranquilla, Colombia

GPA: 4.4/5.0

Certifications

- **Power BI Data Analyst Associate (PL-300)** – Microsoft (In Progress)
- Google Data Analytics – Google (2025)
- Business Intelligence (BI) Essentials – IBM (2024)
- SQL for Data Science – Coursera (2023)

Languages

- English (Professional Working Proficiency)
- Spanish (Native)

Ongoing Professional Development

- Currently deepening expertise in advanced Power BI features, including DAX, dataflows, and custom visuals, and active learning of APIs in .NET.
- Engaged in continuous learning of predictive analytics and machine learning for business applications

How My Experience Aligns with This Role

Bachelor's or Master's degree in Information Systems, Computer Science, Business Administration, or a related field

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

4+ years of experience in Business Analysis or BI roles, preferably with a focus on AI-enhanced data solutions.

Implemented sales and inventory dashboards for Latin America, reducing decision-making time by 40%

Strong proficiency in Power BI, SQL, and advanced Excel (including automation and AI-powered functions).

Built 20+ SQL stored procedures, improving query performance by 40% and reducing error rates by 75%

Experience using BI tools such as Tableau or MicroStrategy, and working knowledge of ETL frameworks.

Automated ETL processes, reducing daily processing time from 4 hours to 30 minutes

Proven track record in leading data integration projects, developing predictive models, and supporting executive-level reporting.

Architected consolidated dashboard integrating 8 data sources, cutting data preparation time by 70%

Strong analytical, problem-solving, and project management skills

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

Excellent communication and stakeholder management abilities, capable of translating business requirements into effective data solutions.

Implemented sales and inventory dashboards for Latin America, reducing decision-making time by 40%

Familiarity with cloud-based data environments and AI-driven analytics practices (nice to have)

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

English Full Professional Proficiency

Relevant experience demonstrated through data analysis, process optimization, and cross-functional collaboration in enterprise environments.

Design and implement AI-driven dashboards and data models using Power BI, SQL, and Excel to support predictive analytics and performance optimization.

Architected consolidated dashboard integrating 8 data sources, cutting data preparation time by 70%

Manage end-to-end BI modernization initiatives, including data warehouse expansion, ETL automation, and AI capability integration.

Developed 15+ automated reports using M-AT and NPR, reducing manual reporting time by 60% for 200+ healthcare professionals

Translate business requirements into actionable data solutions in collaboration with data

engineering and technology teams.

Collaborated with cross-functional teams to optimize healthcare data workflows

Develop and optimize automated reporting workflows to enhance efficiency and reduce manual effort.

Developed 15+ automated reports using M-AT and NPR, reducing manual reporting time by 60%

Act as a liaison between business stakeholders and technical teams, ensuring timely delivery of analytics projects and reports.

Collaborated with cross-functional teams to optimize healthcare data workflows

Support executive-level reporting by delivering real-time insights that enhance decision-making across campaign tracking, financial planning, and strategic initiatives.

Developed 15+ automated reports using M-AT and NPR, reducing manual reporting time by 60%

Continuously identify opportunities to apply AI and automation to improve reporting, visualization, and data accessibility.

Developed 15+ automated reports using M-AT and NPR, reducing manual reporting time by 60% for 200+ healthcare professionals

Additional Notes (Optional)

If there are requirements in the job description that are not directly evidenced above, I am actively developing transferable skills and have a strong record of quickly bridging knowledge gaps through self-directed learning and hands-on practice.
